

HOFMANN®

201 TrueCut

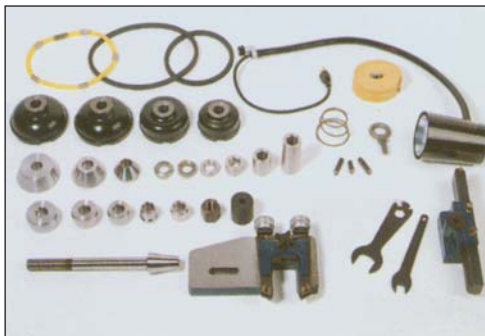

BRAKE LATHE

201 TrueCut

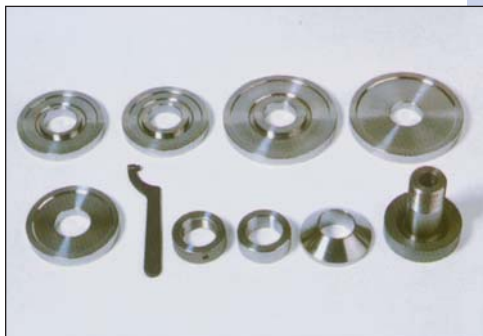

COMBINATION BRAKE LATHE DESIGNED AS AN AFFORDABLE ALTERNATIVE FOR TODAY'S AUTOMOTIVE REPAIR SHOPS.

The Hofmann 201 brake lathe will provide a quality finish with the performance, accuracy, and versatility that is found in all Hofmann equipment.

- **Simple "one cut" finish** Feed carriage speed is factory set for a like new "micro finish".
- **Fast changeover of tooling** changeover from disc cutter to drum cutter is achieved quickly by swiveling the feed carriage assembly.
- **Heavy duty construction throughout** From the oversized tapered roller bearings supporting the lathe arbor to the 350 - pound ductile iron chassis, the 201 brake lathe is built for years of machining.
- **Innovative tooling design** The 201 standard tooling package is easily adapted to all existing and future machining applications.
- **Complete tooling package is included** Bearing adapters, cones, rotor and drum silencers, drum and rotor cutter tools, work lamp, drum and rotor hubless cups, wrenches, etc.

Complete tooling package for 201 TrueCut

108963 Universal hubless / composite adapter

TK4-1 Heavy-Duty truck adapter set

BRAKE LATHE

Specifications

Drum/rotor carriage feed0025"
	per revolution
Drum diameter range to 14.0"
Drum facing travel to 4.0"
Rotor/flywheel diameter range 5.0"-18.0"
Rotor thickness range to 3.0"
Rotor/flywheel facing travel to 4.0"
Arbor Speed 185-190 RPM
Arbor diameter 1.0"
Maximum Arbor Weight 150 lbs.
Shipping Weight 350 lbs.
Power requirements 115v 1 Ph
	10 amps 50/60 Hz
Optional 230v 1 Ph
	5 amps 50/60 Hz

Optional Accessories

Backboard for accessoriesB203
Workbench for brake latheB206
Heavy duty adapter set for $\frac{3}{4}$ & 1 tonTK4-1
Carbide bits (pack of 10.)W139
Rotor stabilizerCL503
Replacement rotor stabilizer (set of 2)1103
Universal hubless adapter set108950
Universal hubless/composite adapter set108963
$\frac{11}{16}$ " Arbor setW177
$1 \frac{7}{8}$ " Arbor setTK6
