Monty 2700

TIRE CHANGER

CLASSIC CENTER POST TIRE CHANGER DESIGNED FOR HIGH VOLUME TIRE SHOPS.

The Hofmann 2700 center post tire changer with dual power stroke has the speed and durability required for high volume tire shops.

- **Dual power cylinders**
Two large air over oil cylinders provide maximum power and allows the operator complete control over mounting and demounting.
- **Fastest cycle time**
With the bi-directional combination tire tool, you can completely demount or mount a tire with one cycle of the machine.
- **Rebuildable air cylinders**
Air cylinders can easily be rebuilt to extend the life of the machine for years longer than competitive models.
- **Unique bead breaking system**
Lower bead breaker has a built-in adjustment to match most rim contours.
Both beads are broken at the same time.
- **Reliable**
Proven design used for years in many of the highest volume tire shops.

Hofmann manufactures a complete line of wheel service equipment.
